

2012 ONTARIO BIKE SUMMIT

# SHIFTING GEARS

April 24th -25th

Hyatt Regency, Toronto

# Shifting Gears

## Ontario Bike Summit 2012

There are more people riding bikes than ever. The Ontario Bike Summit and the Bicycle Friendly Communities Program have improved bicycle friendliness and liveability in many communities, but the need and opportunity to improve physical activity, safety and liveability – while reducing congestion and greenhouse gas emissions is greater than ever.

These issues seem difficult to solve but the answer is simple. The answer is the bicycle. Now is the time to energize our municipal sector and enhance their ability to harness the benefits of bicycling investments. Now is the time to ask the Ontario government to make strategic investments that foster healthy people and healthy communities. Join us April 24-25th in Toronto as we gather to discuss strategies for change – for “Shifting Gears” – as we work together to devise solutions to enhance our economy, our environment and our public health.
